**LABOR** FOR CANNING

Mr Colin Thorpe  
Project Co-ordinator  
Friends of the White Water Park

Dear Colin

## **CHAMPION LAKES AND WHITE WATER PARK**

Congratulations on organising the public forum on Wednesday 22<sup>nd</sup> September 2004. I very much enjoyed meeting Robin Bell who is certainly an outstanding ambassador for canoeing, and Western Australia.

The whole concept of the Champion Lakes project is so important to this region. The capacity to host all levels of rowing and canoeing will make a great contribution to W.A.

The development will clearly not be complete, and achieve its potential, without a White Water Park. The opportunity to cater for all canoeing disciplines and also provide a great community and tourist facility should not be lost.

If the Latham Government is elected on the 9<sup>th</sup> of October, and hopefully with me as the Member for Canning, I will strongly advocate for Federal funding for the White Water Park. I would see this funding as complementary to Federal funding support for the Aboriginal Interpretative and Enterprise Centre and rowing infrastructure at Champion Lakes.

I look forward to Western Australia having at Champions Lakes, an international standard rowing and canoeing facility which will help gain more gold medals at future Olympic Games.

It will also give us the wonderful opportunity to 'Bring Robin Home'!!!

Yours sincerely

Hon Kay Hallahan AO

24<sup>th</sup> September 2004
